DO YOU RECEIVE MULTIPLE BENEFIT/PAYMENTS?

If you receive multiple benefit/payment types on your UCard, certain funds may automatically be used to cover the difference when you attempt to make a purchase without having enough funds in a particular account.

For example, say you receive Employment & Training (E&T) Funds and also Support Funds. The balance in your E&T account is \$10.00 and you try to make an E&T purchase that costs \$15.00.

Instead of denying your transaction, UCard will automatically check the balance in your Support Funds and, if available, funds will be taken out of that account to pay the difference.

Use this chart to help you understand the order in which funds will be used for various transactions:

If you do not have enough funds in this account to pay for your transaction...	This is what will happen...
Food Stamps	Transaction will be denied
Child Care	Transaction will be denied
Employment & Training	<i>If you also receive Support Funds:</i> Funds will be taken out of your Support Funds account to make up the difference <i>If you also receive Cash Payments:</i> Funds will be taken out of your Cash Payments account to make up the difference
